All you need in ONE COMPLETE SET!!! The health care industry is moving toward a major change in the code set, or “language,” used to report the reasons why a physician or health care professional provided care to a patient. Since 1978, the ICD-9-CM code set has been used to report these diagnoses. Within the next few years, the code set will be changing to ICD-10-CM. While there are many similarities, there are changes that those in the health information management profession (and those getting ready to enter this profession) must know and understand.
