Review of Diagnosis, Oral Medicine, Radiology and Treatment Planning (3rd Edition) Norman K. Wood

This book was written to aid the dental and dental hygiene student in preparing for national, regional and state licensing examinations. It also serves as a self-testing instrument for the general practitioner (Continuing education course textbook). The text is divided into three parts: Part 1 - Approximately 500 review questions with accompanying photographs on oral diagnosis, oral medicine and radiology. Part 2 - Approximately 400 review questions with accompanying photographs on comprehensive treatment planning. The following subject areas are included - oral medicine, periodontics, endodontics, restorative dentistry, removable prosthodontics, pediatric dentistry, medical emergencies, pharmacology, common medical entities, CPR, forensic dentistry, medical laboratory values and preventative dentistry. Part 3 - case analysis, taking the reader through diagnosis and treatment planning for two comprehensive cases. An answer key is provided for all three parts.
