Technology and Innovation Management

Technology and Innovation Management

Technology and innovation management is an interdisciplinary field of study which incorporates concepts from various fields like entrepreneurship, organisational behaviour, resource management, etc. under one branch. This book consists of contributions made by an international panel of experts that will help to provide information on topics like business model innovations, knowledge management, managing emerging technologies and innovations, creating opportunities for entrepreneurship, strategic decision making, etc. The extensive content of the book will help provide innovative insights to the students and academicians engaged in this field.
