In *The Nine Fantasies That Will Ruin Your Life and the Eight Realities That Will Save You*, Dr. Joy Browne helped us to get our heads out of the clouds and our feet on the ground. In her new book--being published just after the launch of her new syndicated TV talk show, as well as a syndicated newspaper column--she gets even more down to earth, exposing the wild beasts that lurk inside even the most seemingly tame guys.

If you want to finally understand what's going on with men at work, for instance, you'll hear the answer in a chapter Dr. Joy calls "The Jungle." The dynamics of men and their families become apparent in "The Pride," the male attitude toward sex is exposed in "Mating," the whole aggression thing starts to make sense in "Locking Horns," what passes for communication among guys is treated in "Roaring," and the male concern about appearance (a far bigger preoccupation than they'll admit to, by the way) gets uncloaked in "Plumage."

As her millions of radio listeners--and, starting this September, millions of TV viewers--know, Dr. Joy combines a sense of fun and a sympathetic voice with an astute understanding of what makes people tick.

In *It's A Jungle out there, Jane*, she uses all her talents to help women understand the men who are, or might someday be, their mates.
