Introducing Ken Wilber: Concepts for an Evolving World Lew Howard

Ken Wilber's revolutionary thinking is beginning to shift the orientation of Western culture. Wilber combines his knowledge as mystic, scientist, psychologist and philosopher to create comprehensive concepts for understanding our world and our place in it. This "integral approach" is much needed in a world torn by conflicts of religion, culture, and ideology. Lew Howard says, "I wrote this book to make the work of Ken Wilber accessible to the average person. Wilber's integral understanding (which is an interlocking whole) is broken down into concepts that can be individually understood. These understandings result in an integral conception of the Kosmos. Wilber's insights revolutionized my spiritual practice-and can do the same for you."
