## **Baccarat, Blackjack, Craps & Roulette: Winner's Pocket Guide** Mayo Gardner

Here's your best chance to become a winner! The author draws upon more than 30 years of gaming experience to help you quickly master the basics of each of the games he presents to you and even gives you a few nuggets that should help you win not just at these games; but, at any casino game you choose to play.

Why you might ask, does he choose these four games? That's simple! These four games are the easiest for you to learn in the shortest amount of time. And, besides being fun, they give you the best chance to win because the house has the lowest edge if you play the game correctly!

In less than 10 minutes, you'll learn how to manage your money to give you the best chance to win at any game you choose. You'll learn how to play winning Baccarat in less than 15 minutes and which bets to make and when to get a payout as high as 8 to 1. Just as importantly, you'll learn how not to get suckered in on bad bets even though the odds look good. The games are a lot of fun and it really is as easy as flipping a coin and calling heads or tails. You'll learn a simple trick that can help you win even if you don't understand the game. I call it "Follow that cab."

Most people think they know how to play blackjack even if they don't know how to count cards; but, very few actually know the correct basic strategy for the game and you'll learn how you may be able to play absolutely perfect blackjack strategy without even having to study all those charts. This is all about fun and profits not about a lot of studying charts - that would take the fun out of it and make it like work.

Have you ever been in a casino and seen people standing around a crap table, shoulder to shoulder, and whooping and hollering like you wouldn't believe. I have and one of the loudest players left the table with over \$188,000.00 of the casino's money! "Talk about Sweet!" Let me tell you when you find a "Hot Crap Table" you can take the sweet little system I teach you for a "Hot Crap Table" and make some real money! If you don't find a "Hot" table that's OK too. I'll show you another sweet little system for a "Cold Crap Table" so you can still make some money! I'll show you how even experienced "crap shooters" (people who play craps and who shoot the dice) often don't make the best use of the money they bet on the game. So, even some of you experienced players might want to pick up on that tip.

So, what about Roulette? It can be a lot of fun; but, it actually does have a large house edge. However, if we play it the right way, we can minimize that and even win a little money while we watch the ball go "round and round." I'll explain how the house gets their edge and it shouldn't take you more than 1 or 2 minutes to understand that. Then, I'll show you something you wouldn't believe if you didn't see it happening time and again at the table. In the short run, you can usually find some numbers that repeat far more frequently than they should.

Let me just wrap it up for you like this: I've played for over 30 years and enjoyed far more wins and perks than I would have if I hadn't played. I can't go into the detail in this one book of everything I've learned in that time; but, I can give you the best of the best tips or nuggets to help you feel comfortable at the table and to help you win without your having to study a bunch of mind-boggling stats and B.S. That's the purpose of this book!

This book is simple enough that a novice who might never have played any of these table games can read up on the game they're interested in playing in about 15 minutes or less. An experienced player at any of these games may know most of what I present here; but, that same experienced player will also find some little nuggets (tidbits) to make them a better player too!

Gaming can and should be FUN! To that end, I've provided you with some tips to make your gaming experience more fun and hopefully much more profitable! Play smart and have fun!
