“In the 21st century, there will be an increasing competitive need for any company to operate as a globally integrated enterprise that can effectively develop and then tap the skills and capabilities of its workforce anywhere in the world. In IBM, we have worked to enable a workforce that is adaptive, flexible, and capable of responding to changes in the marketplace and the needs of our clients. “This book highlights tried and true best practices developed at a company known the world over for active dedication to their workforce. Mary Ann, Diana, and Sheila have captured the key issues that will enhance and streamline your career development program and, subsequently, increase employee engagement, retention, and productivity. I particularly like their practical, real-life understanding of the barriers to most career development programs and the manageable framework to bring career growth to life. They also teach us how to make a business case for career development—critical in creating the foundation for a sustainable program. This includes a good blend of benefits both for the individual employee and the organization as a whole. I only wish I had this book available to me years ago when I was managing a career development program!”

–**Jim Kirkpatrick, Ph.D.**, author of *Implementing the Four Levels of Transferring Learning to Behavior*
