## **The Life and Death of John Henry Tunstall (Southwest Heritage)** Frederick Nolan

In 1956, Frederick Nolan, then 25, located in the archives of the British Foreign Office a substantial file of original correspondence between the British and American governments, the family of John Tunstall, and many of the participants in the New Mexico Territory's Lincoln County War. Soon after this he was given unconditional access to Tunstall's letters and diaries, and three and a half years later--although he had never set foot in the United States--completed a biography based upon the sympathetically-edited letters and diaries of the young English rancher whose brutal murder in February, 1878, triggered the bitter and unrelenting violence that followed. His widely-acclaimed debut is recognized today as a breakthrough work which completely revolutionized historical understanding of the personalities and events of New Mexico's Lincoln County War and in the process changed forever the way the subject would be written about. The first book ever to link those events to the shadowy cabal known as the Santa Fe Ring, the first book ever to place Billy the Kid in the true context of his time, the first book ever to make available the letters of such men as Alexander McSween, Huston Chapman, and the hitherto unknown Robert Widenmann, it set new standards for both research and writing in this field and in the process became a classic. It is augmented in this edition with a new foreword and a supplement of corrections to the first edition which incorporates the author's more recent historical and biographical research.
