### An Introduction to Rehabilitation Engineering (Series in Medical Physics and Biomedical Engineering)

Answering the widespread demand for an introductory book on rehabilitation engineering (RE), Dr. Rory A. Cooper, a distinguished RE authority, and his esteemed colleagues present An Introduction to Rehabilitation Engineering. This resource introduces the fundamentals and applications of RE and assistive technologies (ATs).

After providing a brief introduction, the book describes the models for AT service delivery, the design tools and principles of universal design, and various technology-transfer mechanisms, models, and principles. The text then explains the process for creating assistive device standards, followed by a review of seating biomechanics and soft tissue biomechanics. Subsequent chapters examine design and service delivery principles of wheelchairs and scooters, functional electrical stimulation and its applications, wheelchair-accessible transportation legislation, and the applications of robotics in medical rehabilitation. The book proceeds to discuss prosthetic and orthotic design and usage, visual and hearing impairment, Web-related AT, and augmentative and alternative communication (AAC) technology. It concludes with an introduction to adaptive sports and recreation.

Incorporating the critical aspects of RE and AT, An Introduction to Rehabilitation Engineering focuses on the principles, modeling, standards, devices, and technologies of RE and AT. It presents a concise yet complete overview of RE to provide a solid foundation in the subject as well as to stimulate further study.

#### From reader reviews:

#### **Dolores Stiger:**

Reading a guide tends to be new life style within this era globalization. With reading you can get a lot of information that may give you benefit in your life. Using book everyone in this world can easily share their idea. Publications can also inspire a lot of people. Many author can inspire their particular reader with their story or even their experience. Not only the storyline that share in the guides. But also they write about advantage about something that you need example. How to get the good score toefl, or how to teach your kids, there are many kinds of book which exist now. The authors on this planet always try to improve their expertise in writing, they also doing some exploration before they write with their book. One of them is this An Introduction to Rehabilitation Engineering (Series in Medical Physics and Biomedical Engineering).

#### **Vivian Obrien:**

A lot of people always spent all their free time to vacation or maybe go to the outside with them loved ones or their friend. Did you know? Many a lot of people spent they will free time just watching TV, or playing video games all day long. In order to try to find a new activity that is look different you can read a book. It is really fun in your case. If you enjoy the book that you read you can spent the whole day to reading a reserve. The book An Introduction to Rehabilitation Engineering (Series in Medical Physics and Biomedical Engineering) it is rather good to read. There are a lot of people that recommended this book. These folks were enjoying reading this book. If you did not have enough space to bring this book you can buy typically the e-book. You can m0ore very easily to read this book through your smart phone. The price is not very costly but this book possesses high quality.

#### **George Conner:**

Playing with family inside a park, coming to see the water world or hanging out with good friends is thing that usually you might have done when you have spare time, subsequently why you don't try issue that really opposite from that. A single activity that make you not sense tired but still relaxing, trilling like on roller coaster you are ride on and with addition of knowledge. Even you love An Introduction to Rehabilitation Engineering (Series in Medical Physics and Biomedical Engineering), it is possible to enjoy both. It is fine combination right, you still want to miss it? What kind of hang type is it? Oh seriously its mind hangout guys. What? Still don't buy it, oh come on its referred to as reading friends.

#### Susan Gaier:

An Introduction to Rehabilitation Engineering (Series in Medical Physics and Biomedical Engineering) can be one of your basic books that are good idea. All of us recommend that straight away because this publication has good vocabulary that will increase your knowledge in terminology, easy to understand, bit entertaining however delivering the information. The article writer giving his/her effort to get every word into pleasure arrangement in writing An Introduction to Rehabilitation Engineering (Series in Medical

Physics and Biomedical Engineering) however doesn't forget the main point, giving the reader the hottest and based confirm resource information that maybe you can be one of it. This great information can certainly drawn you into brand new stage of crucial considering.
