Liberal Bolshevism Alexander G Markovsky

This book begins with the author's recounting of the end of the Cold War. Despite the common perception that democracy defeated communism, the author presents evidence that the Democratic Party has adopted Marxism in a new philosophy he calls Liberal Bolshevism. Mr. Markovsky traces the origins of Liberal Bolshevism back to the policies of Woodrow Wilson and FDR and chronicles the transformation of the Democratic Party into the Social Democratic Party. Through the prism of Marxism the author traces the rhythms and patterns of the toxic amalgamation of liberalism and socialism from Lenin to Obama. Mr. Markovsky defines President Obama as the most consequential Democratic president of the last century. The major consequence of his presidency is that he has launched the country on a course that, if not altered, will culminate in autocratic government and the abolition of civil liberties."
