Who Will Tell Your Story Sue Rose

This is a book to document your life as it happens, it is not intended as a daily journal, rather as a means to capture your family's Genealogy and "key moments" as you live them. It will be an invaluable piece of family history for all relatives to come. Create a piece of history in your own words by writing your story with details only you can describe. No one knows about the significant events that take place in your life better than you. By tracking our relatives, documenting life changing events for you and your children, your family will know and understand how and why you became the person you were. You can also document parents and other relatives lives before it is too late. Generations of family history will be readily available to any family member that is interested. Just think what the times were like in their lives when they were growing up, different parts of the world, different decades and yes, different centuries. Stories will be told that only one person could tell. So much Genealogy is available online, however, nothing is more personal and memory worthy than a handwritten book that can be passed down from generation to generation. One day your child or a grandchild could read your story and with pride say, "that was my mother, father or grandparent." I didn't know any of these things about them. Because you took the initiative to document your life, they will now know.
