Real Estate Referral Manifesto Frances Flynn Thorsen

Discover the secrets about referrals lead generation companies don't want you to know. Real estate agents do not leverage their past clients and spheres of influence.

"“Forty-one percent of buyers found their agent through a referral from a friend or family member and nine percent used an agent they had used before to buy or sell a home," according to the National Assn. of Realtors.

Frances Flynn Thorsen is a leading real estate pundit and educator. She pulls back the curtain on the latest shift in residential housing sales: "There is a new referral paradigm. Lead generators are starting to collect some pretty hefty commissions because now they are selling REFERRALS instead of just LEADS."

They can sell LEADS in batches of 10 for about \$250. A single REFERRAL can bring in thousands!

If they can do it, you can, too! It starts with a mindset, a plan, and setting goals. This Manifesto is about the mindset. It examines the paradigm and shines a light on the single biggest missed opportunity in real estate today - Orchestrated Referrals.

Here are some of the topics covered in this Manifesto:
